

## **SUPPLEMENTARY INFORMATION FOR OFFICIALS**

### ***Marshals' On-Post & Radio Collection Times***

Due to changes reflected in Issue 2 of the Timetable, the on-post and radio collection times have had to be amended and are shown separately.

### ***Track Marshals' Bus Timetable***

These have been updated to reflect the revised marshals on post times.

<b>Day</b>	<b>Bus Times</b>	<b>Marshals on Post</b>
Friday:	06.45 – 07.30	07.30
Saturday:	06.30 – 07.15	07.15
Sunday:	06.00 – 06.45	06.45

### ***Health & Safety***

With the high temperatures expected to continue all this week, it is very important that all volunteers and officials take the appropriate action to protect themselves against sunburn and dehydration.

Please remember to bring (and regularly apply!) sun-cream, take and drink plenty of fluids and wear the provided baseball cap or a preferred sun hat. Long trousers (lightweight in any colour preferred) are essential for roles not based trackside; not only do they offer some protection from hot fluids in the event you are close to an incident, they also reduce the risk of painful sunburn.

### ***Silverstone Provided Water***

There will be deliveries of water to the campsite on Thursday morning ready for sign-on (3 bottles, 1 for Thursday/2 for Friday) and Friday/Saturday evenings (2 for Saturday/2 for Sunday) for marshals. Please only take your allocation so there is enough for everybody and please do not let your guests take this water. There will be a separate allocation for Racemakers in the marquee. Water for the Track Safety Team will be delivered to TST Control on Copse Runway; please make arrangements to collect your allocation from that location.

Silverstone are also putting in additional standpipes around the venue, which will be available for marshals and the general public to refill their bottles.

Thank you for your continued support!
